

## **Citizen's Advisory Committee**

### **Meeting Agenda**

Thursday, September 17, 2009

6:30pm

**I. Introductions (possibly 3 new faces coming to this meeting)**

**II. Local Events – White Bear Township Festival Recap**

**III. Raingarden Workshops – Filming Project Update**

**IV. Local School Involvement**

We touched briefly on this topic at the August meeting but I would like to get more opinions and ideas from the members in regards to taking on more of a role in working with the schools. Are CAC members interested in being a main VLAWMO representative with a particular school or school district? VLAWMO staff hasn't had the time to work on this very important area so we are looking to the CAC to be the leaders on this (if that is of interest). It would mean meeting with school staff and planning projects and then proposing to VLAWMO how they could be involved.

**V. Watershed Projects – Information Updates**

A. Whitaker Pond

B. White Bear Preserve

**VI. Other Items**

A. Rainbarrel Program Update

B. Grant Programs – interest from the CAC to look for grant opportunities for water resource projects and/or help with the legwork?

C. Newsletter/ e-newsletter possibilities

D. Other projects that the CAC is interested in doing?

**VII. Committee Member Reports/Updates**

**VIII. Date of next meeting – do you want to meet monthly or bi-monthly?**

Proposed dates are October 22 or November 19.
