

Citizen's Advisory Committee

Meeting Agenda

Location: Vadnais Heights City Hall, 800 East County Rd E

Thursday, October 22, 2009

6:00pm

I. Introductions

II. Watershed Projects – Information Updates

- A. Whitaker Pond
- B. White Bear Preserve
- C. Birch Lake

III. Program Updates

- A. Rainbarrel Program Update
- B. VLAWMO Cost Share Program Change
- C. PCA Tour – October 30

IV. CAC Projects

- A. Local School Involvement
Possible role for the CAC: Contact other local watershed districts (such as Ramsey Washington Metro and Rice Creek) to find out what they do for education activities with local schools and learn how VLAWMO could start up a more formal program. We don't need to work with every school within the watershed. VLAWMO can give the CAC reps the contact information for who to talk to at these other watershed districts. Once we have some program ideas in place, we can start by contacting one or two schools – perhaps the AFSA School and an elementary, to see how we can help out. Is this something the CAC is interested in doing? Who would be willing to take a lead role?
- B. *Water Matters* News column – ideas for future columns?
- C. Newsletter/ e-newsletter possibilities
- D. Other projects that the CAC is interested in doing?

V. Committee Member Reports/Updates

VI. Date of next meeting – November 19 (?)

- plan to NOT have a December meeting
- set dates for 2010
