

PERMIT APPLICATIONS FOR MOST PROJECTS INVOLVING LAKES, WETLANDS, RIVERS, AND STREAMS

*The links below will connect you to the forms at the appropriate state agency and should be submitted to all appropriate agencies. **VLAWMO is not responsible for these requirements.***

- Most projects involving lakeshore or river alteration such as bridge/culvert installations, sand blankets, shore protection, channel excavation, etc., require a DNR Public Waters Work Permit and authorization from other governmental units. Permits for such projects can be applied for using the following form:

[Permit Application Forms for Water/Wetland Projects](#) Also available on the BWSR website as a Microsoft Word [document](#). (*Form NA-026620-03A - Minnesota Local/State/Federal Application Forms for Water/Wetland Projects*)

- You will be informed by DNR Waters if your proposed project requires a DNR Public Waters Work Permit. If the proposed project is subject to the Wetland Conservation Act (WCA), permits for these types of projects can be applied for using the following forms:
