STENCIL TRACKING SHEET

Keep track of your work by counting storm drains painted and marking them on the map as they are painted .

This is easier than trying to remember it all at the end!

Submit this form when returning the kit.

Organization/group name		
Stenciling event date		
	Sub-watersheds See the subwatershed map. Keep separate counts based on which subwatershed you're working in.	
Sub-watershed names		
# of storm drains stenciled		
# of volunteers on your team		
# of brochures distributed		
# of trash bags collected		

<p>Review Ask the team: 1) What was a highlight? 2) What could be better for the program? 3) What would you say to others who don't know about how storm drains effect lakes and wetlands?</p>	
---	--

***Thank you** for volunteering to improve the water quality of our lakes and wetlands in the Vadnais Lake Area watershed!*
