

### VLAWMO TECHNICAL COMMISSION MEETING 8:00 AM January 11<sup>th</sup>, 2023

Vadnais Heights City Hall, Council Chambers, 800 County Road E East, Vadnais Heights, MN 55127

### Action items:

- I. Call to Order 8:00am Chair Jesse Farrell
- II. Approval of Agenda
- III. Approval of Minutes (December 14th, 2022) Pg. 2
- IV. Administration & Operations
  - A. Bob Larson recognition
  - B. Financial Report for January & authorization for Payment Phil 🖈 Pg. 6
  - C. 2023 Technical Commission Officer Appointments Phil 

    ✓ Pg. 13
  - D. Confirmation of 2023 TEC Meeting Dates- Phil 

    ✓ Pg. 13
  - E. 2023 Working Budget Overview- Phil Pg. 13

### V. Programs

- A. Drone stream /ditch inspection overview video Brian Pg. 14
- B. VLAWMO Elevator Speech discussion- Nick Pg. 17
- C. VLAWMO 40th Anniversary campaign planning- Nick Pg. 20

### VI. Projects

- A. Wilkinson BMP Update -Dawn Pg. 14
- B. Update on MPCA Community Planning Grant for Stormwater Resiliency Application -Lauren Pg. 15
- C. Vadnais-Sucker Lakes Regional Park Restoration Update -Lauren Pg. 16
- D. 2023-2025 BWSR WBIF Grant Update -Lauren Pg. 16
- VII. Commisioner Reports
- VIII. NOHOA
- IX. Ramsey Soil & Water Conservation Division
- X. St. Paul Regional Water Services
- XI. Public Comment
- XII. Next Meetings: TEC: February 8th, Board Meeting: February 22, 2023
- XIII. Adjourn

# Vadnais Lake Area Water Management Organization Technical Commission (TEC) Minutes December 14, 2022 Vadnais Heights City Hall, Council Chambers 800 County Road E East, Vadnais Heights, MN 55127

### **Commission Members Present:**

Nolan Wall Chair, Vadnais Heights (VH) Alternate

Gloria Tessier Vice Chair, Gem Lake (GL)
Andy Nelson White Bear Township (WBT)
Terry Huntrods White Bear Lake (WBL)

Absent: Patricia Orud North Oaks (NO) Alternate

Others in attendance: Phil Belfiori, Dawn Tanner, Brian Corcoran, Lauren Sampedro, Nick Voss (VLAWMO staff), Jeremy Erickson (SPRWS)

### I. Call to Order

Vice Chair Tessier called the meeting to order at 8:08 am.

### II. Approval of Agenda

It was moved by Commissioner Nelson and seconded by Commissioner Huntrods to approve the December 14, 2022 TEC agenda Vote: all aye. Motion passed.

### III. Approval of Minutes (November 11th, 2022)

<u>It was moved by Commissioner Huntrods and seconded by Commissioner Nelson to approve the November 11<sup>th</sup> meeting minutes as presented. Vote: all aye. Motion passed.</u>

### IV. Administration & Operations

### A. Financial Report for Payment

Administrator Belfiori summarized the financial report as included in the TEC packet. He highlighted some of the main expense items including the payment allotments from Ramsey and Anoka County, the Whitaker Pond biochar project, Wilkinson BMP project, and remaining carp management payments. Belfiori recommended approval of the financial report.

It was moved by Commissioner Huntrods and seconded by Commissioner Wall to approve the December financial report for payment. Vote: all aye. Motion passed.

### B. December TEC Report to the Board

Administrator Belfiori outlined the TEC report to BOD as outlined in the December packet. Highlights include a drone footage effort for aerial views of Lambert Creek and a 2023 quote for Pleasant Lake carp management.

It was moved by Commissioner Wall and seconded by Commissioner Huntrods to approve the December TEC Report to the Board. Vote: all aye. Motion passed.

### V. Programs

### A. Awards and Outreach

#### 1. Presentation of Watershed Awards

Voss presented the 2022 watershed award recipients as included in the TEC packet. He discussed the recipients' accomplishments and thanked TEC members for their participation in the award process.

2. Update on Education and Outreach 2022 results and 2023 plan Voss presented a summary of the 2022 Education and Outreach results combined with an outlook for outreach goals in 2023. He highlighted some of the successful events and partnerships from 2022 and how VLAWMO works with communities to meet their education and outreach needs. Voss directed TEC members to the links and information in the packet for more detail.

Commissioner Nelson stated that the materials he receives from VLAWMO are some of the best he has seen. He highlighted that the Good Neighbor Guide in particular is a great "one stop shop" for residents. He thanked Nick for his work with the City of Lino Lakes.

### B. Cost Share Program Updates

Sampedro presented the updated cost share policy and application forms.

Sampedro specified that a new policy adjustment is being presented today, which is a recommendation follow-up from the Board subcommittee. The subcommittee recommended the previously proposed \$20/hr in-kind labor hours to be swapped with an increase in the overall grant funds available per applicant for the Soil Health Grant Program. Sampedro stated that staff support the subcommittee's feedback and recommend the maximum Soil Health Grant award amounts increase to \$1,000 and \$1,250 for projects in priority areas. Sampedro recommended approval of the cost share program policy and materials changes.

Vice chair Tessier noted that the new documents appear clear and aid in understanding of the programs.

It was moved by Commissioner Wall and seconded by Commissioner Huntrods to approve the 2023 grant program changes to the Board of Directors. Vote: all aye. Motion passed.

### VI. Projects

### A. Consider Contracts/quotes for 2023

Tanner presented the batch of upcoming contracts, which she noted are also being presented to the December Board meeting.

Commissioner Wall inquired about what is done with the harvested carp. Tanner provided that they are used as fertilizer on agricultural fields.

It was moved by Commissioner Wall and seconded by Commissioner Tessier to approve the 2023 contracts for work in 2023. Vote: all aye. Motion passed.

### B. Wilkinson BMP Project Update

Tanner presented the early preliminary design memo (included in the packet) from Houston Engineering on the Wilkinson BMP project. The wetland delineation has been completed and the notice of decision/boundary approval was received in November. . Meetings with partners are ongoing and permitting discussions are underway.

Tanner discussed an Excel tracking tool for use in major projects. The Excel tool includes a dashboard that summarizes the project to date. A snapshot of the dashboard will be presented regularly to TEC and Board.

### C. Spent Lime Grant Submission Authorization

Tanner described the background of the spent lime treatment in Oak Knoll pond, starting from smaller pond trials prior to the Oak Knoll Pond. Staff requested authorization for Barr Engineering to submit a grant proposal for this project on behalf of VLAWMO.

Commissioner Nelson inquired about the results of the smaller ponds. Tanner provided that immediate results for water clarity were positive. Buffering capacity remains a focus in continued research, with investigation of how much needs to be applied over time.

It was moved by Commissioner Huntrods and seconded by Commissioner Wall to recommend approval of grant submission to the Board. Vote: all aye. Motion passed.

### D. MAWD Annual Meeting/Carp Project Presentation

Tanner summarized the carp presentation that was provided at the 2022 MAWD conference and mentioned that a presentation in North Oaks to the community is currently planned for winter.

### E. Update on 2023-2025 BWSR WBIF Grant

Sampedro presented an update on the BWSR Watershed-based Implementation Funding grant program for implementation in 2023-2025. She summarized that a convene meeting was held in the summer and staff worked with partners to submit a budget request and draft workplan to BWSR to secure the \$75,000 in available grant funding.

Sampedro stated BWSR has approved the budget request and workplan and the only remaining steps are Board approval of the workplan and execution of the grant agreement. If grant funds are executed they will support at least one project in the Landscape Level 2 grant program.

### I. Commissioner Reports

Commissioner Wall shared a construction project has begun on the southwest shore of West Vadnais Lake and construction will occur over the next 18 months.

### II. NOHOA

None

### III. Ramsey Soil & Water Conservation Division

None

### IV. St. Paul Regional Water Services

None

### V. Public Comment

None

### VI. Next Meetings:

Next TEC meeting January 11th. Next BOD meeting February 22nd.

### XIII. Adjourn

<u>It was moved by Commissioner Wall and seconded by Commissioner Huntrods to</u> adjourn the meeting at 8:40 am. Vote: all aye. Motion passed.

Minutes compiled by Nick Voss.

### TEC Staff Memo - January 11, 2023

### IV. Administration & Operations

A. Bob Larson Recognition

### B. Financial Report for December & authorization for Payment

Please find the January 2023 Finance Report attached in the ePacket for review and approval.

### C. Election of 2023 TEC Officers Election of Officers

With January comes the need to elect or confirm a slate of officers for the Technical Commission. Per usual, the Board will officially appoint the TEC Chair but they look to the TEC to recommend who they want as Chair for the year. Currently from 2022:

Jesse Farrell, Chair

Gloria Tessier, Vice Chair

Bob Larson, Financial officer (will not be on the TEC in 2023)

Paul Duxbury, Liaison to the Board (will not be on the TEC in 2023)

### D. 2023 TEC Meeting Dates and Location

Requested confirmation from the TEC of 2023 meeting dates and location so this information can be shared with the Board of Directors and be included in the VLAWMO calendar.

### E. 2023 Working Budget Overview

At their December 14, 2022 meeting the VLAWMO Board approved the fund balance carry over "working budget" for 2023. As approved, the final "working" budgeted expenditures for 2023 will be \$1,621,450.

To pay these expenditures the projected income within the approved working budget for 2023 is made up of: 1) \$1,095,087 from the SSU and some small fees and 2) up to 526,363 in 2022 fund balance carry over. It is also estimated that \$385,284 of grants/ other outside funding revenue sources (mostly MPCA 319 grant income /partnership for proposed Wilkinson Lk. and BWSR grant income for watershed based cost share) will be utilized to implement some of the important projects and programs in the 2023 budget. These outside funding revenue grant amounts are anticipated to be revised based on project board action and project timing constraints and or other variables.

Summary of some of the key 2023 approved Budget project highlights include:

- 1. Proposed MPCA grant 319 Wilkinson Lake project
- Level 2 cost-share partnership projects and other cost share activities/programs
- 3. Pleasant Lake (carp management) program

- 4. Public drainage inspection and maintenance program
- 5. Proposed work in the E. Goose Lake subwatershed including proposed partnership on pilot demonstration project for spent lime pond application
- 6. Pilot demonstration groundwater conservation cost share program
- 7. Project communication and education/ outreach
- 8. Water quality monitoring
- 9. Lambert Pond project loan debt service

### V. Programs

### A. Drone Stream/Ditch inspection overview video

Staff coordinated with the City of Vadnais Heights to use their drone to inspect the hydraulics of the recently completed meander project to make sure flows and streambanks were in good shape. The drone flight also flew over the phase I & II ditch dredging projects to inspect conditions. Overall the ditch was in good shape will minor debris in a few areas. We appreciate the partnership from the City on this effort and would like to continue the drone flights as part of our overall inspection efforts going into the future. Staff will show a portion of the drone flight at the TEC meeting.

### B. VLAWMO elevator speech discussion

Staff member Nick Voss will introduce a new elevator speech guide to aid in talking about VLAWMO outside of TEC meetings. The guide (included in the January TEC packet) is structured with options to choose from to create a custom elevator speech that is catered to the talking points of your choice. Voss will provide a powerpoint presentation at the meeting to summarize the packet materials and an overview of the guide. VLAWMO looks forward to the many opportunities coming up in 2023 and hopes that this guide can be an ongoing reference to support water related topics in your communities as well as help broaden and grow the network of watershed partners.

### C. VLAWMO 40th Anniversary campaign planning

We're excited to announce that 2023 is VLAWMO's 40<sup>th</sup> anniversary! Staff member Nick Voss will introduce a draft 40<sup>th</sup> anniversary communications campaign for TEC feedback and input. Find the draft campaign included in the January TEC packet.

### VI. Projects

## A. Wilkinson BMP Project update: There are 3 main updates since the previous TEC meeting

1) In Dec., VLAWMO and NOC staff met with the Minnesota Land Trust to share the early preliminary design memo and discuss preferred process for review/changes by MLT as plans continue to advance. MLT will be providing written comments to

VLAWMO during Jan. on the early preliminary design memo.

2) VLAWMO received the sediment report from Braun and accompanying memo from HEI for the Wilkinson BMP Project on Jan. 3, 2023:

The Braun report identified that some of the arsenic samples are above the recently revised MPCA soil reference values; however, the report also noted that the "materials planned for dredging meet Dredge Management Level 1 criteria" and "planned re-use of the material as an earthen berm equates to long term storage and thereby, disposal, according to dredge management guidelines."

The HEI memo dated Jan. 3 identifies that HEI determined that a MPCA Permit is not required for the dredging and on-site disposal of spoil materials.

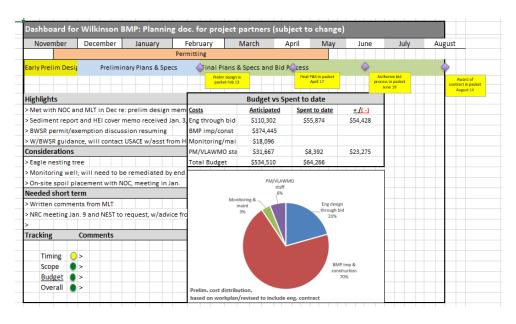

The sediment report from Braun and accompanying memo from HEI for the Wilkinson BMP Project are linked here:

www.vlawmo.org/index.php/download\_file/4321/

With the sediment report and HEI memo completed, VLAWMO is resuming work on permitting with BWSR and is planning to set up a USACE meeting to follow.

3) VLAWMO staff are anticipating providing an update to the Natural Resources Commission in North Oaks on Jan. 9. The update was originally scheduled for Dec. 12 but was postponed when it was determined that a quorum was not going to be reached.

A snapshot of the dashboard shows project status to date:

B. Update on MPCA Community Planning Grant for Stormwater Resiliency Application

The MPCA is offering \$395,000 in grant dollars to support climate planning projects in Minnesota to improve community resilience to climate change effects. The funding focuses on three areas of improving stormwater resilience and reducing localized flood risk; improving the resilience of wastewater systems; and adapting community services, ordinances and public spaces. This funding will be distributed across the State, with grant applications due on January 12, 2023. Staff understands these funds are highly competitive with likely a large portion of the application submitted not being funded.

VLAWMO is partnering with Barr Engineering and the City of Vadnais Heights, Ramsey County, Ramsey County Parks and Recreation-Soil and Water Conservation Division, and Saint Paul Regional Water Services to apply for this grant to expand on a Ramsey County study currently underway to reduce flooding at the intersection of Edgerton Street and Centerville Road in Vadnais Heights. Almost 300 acres contribute drainage to this intersection, which ultimately reaches East Vadnais Lake largely untreated. A map of the drainage area is attached in the TEC packet.

The goal of the MPCA application is to complete a study to evaluate upstream, multi-beneficial project opportunities that will further reduce chronic flooding in the study area and reduce stormwater volume for a more resilient community. The study is estimated to cost approximately \$67,810. VLAWMO and partners are requesting roughly 50% of the study cost in MPCA grant funds.

### C. Vadnais-Sucker Lakes Regional Park Restoration Update

Great River Greening posted the RFP for the Vadnais-Sucker Lakes Regional Park restoration project in December. The bid was awarded to Minnesota Native Landscapes (MNL), which came in lower than the other bidders at \$55,165. Once staff receives notice of the anticipated start date of the buckthorn removal work from MNL or Great River Greening, we will coordinate the posting of signage for the public.

### D. 2023-2025 BWSR WBIF Grant Update

At the last Board of Directors meeting on December 14<sup>th</sup>, the grant workplan was approved for the 2023-2025 BWSR Watershed-based Implementation Funding (WBIF) grant and the grant agreement was signed. BWSR fully executed the grant agreement and distributed 50% of the grant funds to VLAWMO of \$37,500. VLAWMO and partners can now focus on pursuing project opportunities to use the grant funds. Staff will also work on completing a brief progress report for BWSR, which is due at the beginning of February.

### **Crafting a VLAWMO Elevator Speech**

Staff invite new and veteran TEC members to kick off 2023 with a refresher on VLAWMO's mission and role. Using the phrases and concepts below we invite TEC and affiliates to plan an elevator speech to describe VLAWMO and your role on the TEC in your own words. 2023 is also marks VLAWMO's 40<sup>th</sup> anniversary and creates unique opportunities for community engagement and networking.

Pick 1-2 points from each category to craft your elevator speech. Try practicing it aloud to make the most of on-the-spot or surprise opportunities.

### Mission and scope: Pick 2

- VLAWMO's mission:
  - o To protect and enhance the water resources in the watershed.
- What VLAWMO does:
  - Planning for water improvements and conservation, help community members such as residents and businesses be part of water solutions, and to tell people about it.
- 40<sup>th</sup> Anniversary
  - Since 1983 VLAWMO has been working with communities in the Northeast Metro to design and build a balanced watershed with clean water.
  - Watch vlawmo.org for 40<sup>th</sup> anniversary recaps.
- Watershed topics we work on:
  - Water quality, local flooding, stormwater, wetlands, aquatic invasive species, helping to build and live around wetlands and waterbodies, public drainage inspection.
  - Working closely with member communities to plan and fund water related projects and accomplish shared goals.

### Organization nuts and bolts: Pick 1

- <u>Joint Powers Association:</u> VLAWMO is a JPA with 6 member communities. An
  elected official from each community sits on VLAWMO's Board of Directors (BOD)
  and an additional appointed representative from each community makes up the
  VLAWMO Technical Commission (TEC).
- Two-board structure: The BOD meets every other month, TEC meets once per month. The BOD has a big picture direction and policy focus while the TEC has a more day to day operations and financial focus.
- Water Management Organization (WMO): VLAWMO serves as a WMO and not a
  Watershed District (WD). The difference between these is largely permitting
  capacity WD's facilitate permits and maintain regulations while WMO's create
  recommendations for member communities to adopt and enforce.

### Help VLAWMO create a community of water leaders: Pick 1

- 1. Where to find more information about our work
  - a. E-newsletter subscribe at the bottom of the VLAWMO homepage
  - b. Website: Start with project pages, waterbody pages, or the "residents" tab
  - Social media: Facebook and Instagram, YouTube (primary)
     LinkedIn, Twitter (Secondary), link to social media pages from the VLAWMO homepage
- 2. How to join the effort for watershed improvement:
  - a. Practice water-friendly yardcare: Look ahead to the next season, check the VLAWMO web calendar for tips.
  - b. Explore water-friendly landscaping: Check out VLAWMO's examples and resources on the "grants" page or check the calendar for workshops and tours.
  - c. Adopt-a-drain (www.adopt-a-drain.org)
- 3. How to connect closer to VLAWMO's day to day work:
  - Inquire what your local City or Township is currently working on with VLAWMO staff and what upcoming opportunities there might be to support or follow along
  - b. Volunteer with VLAWMO or look into the Citizen Advisory Committee (CAC)
  - c. Follow the meeting calendar and visit a public meeting

### Bridge builder phrases: Optional - Pick 1 as needed

"Working with VLAWMO..."

- Brings resources and expertise from the field of water resources into a City or Township effort.
- Shifts persistent water issues or complications into team-oriented solutions.
- Is a proactive approach to water management.
- Can touch on water quantity, water quality, invasive species, water conservation, and even soil health.

### Quick pitch ideas: Navigating some of the most common local water topics

#### Please contact Nick for questions or further detail

- Everyone has waterfront property your boulevard and nearest stormdrain connect directly to a lake, stream, or wetland without treatment.
- Stormponds are designed to catch sediment and excess nutrients before the water from nearby development gets to a lake, stream, or wetland. Unsightly stormponds may be due for maintenance, but this also means they've done their job.
- VLAWMO is one of only a few watershed organizations that has community involvement baked into its DNA. Elected officials and appointed reps drive VLAWMO's work and help plan its direction.
- VLAWMO is unique in its connection to a municipal drinking water source. It works with the Saint Paul Regional Water Services (SPRWS) to keep upstream surface water part of the big picture.
- Leaves and grass clippings often seem "natural", but disposing them in ditches and wetlands
  creates an imbalance and turns them into a pollutant. This produces excess and potentially
  toxic algae, harms aquatic life, creates disturbances that invasive species favor, and hurts
  efficient water movement and storage across the watershed. Responsible disposal at a yard
  waste facility, compost, or curb-site yardwaste pick-up service is a way to look out for your
  downstream neighbor.
- When communicating about illicit discharge (illegal dumping) to the public, water resource communicators often refer to the simple phrase of "only rain down the drain."

### Key themes in watershed planning:

- Watershed planning is often a focus on <u>non-point source pollution</u>. This means that there
  isn't a single "source" or single "point" of water pollution, but is the accumulation of dozens
  or even hundreds of small, seemingly innocent or accidental problems. This is why VLAWMO
  strives for both large and small-scale projects to improve water quality and quantity, and
  balance in the watershed.
- Planning on the front end is more cost-effective and better for community investment than fixing problems after the fact.
- Integrating stormwater best management practices into a development on the front-end, as
  the development is being planned, does take more time, planning, and communication with
  partners. But it's still easier overall than including it after buildings and parking lots are built.

### **VLAWMO Technical Commission – January 2023**

40<sup>th</sup> Anniversary Celebration Plan Draft 1/11/23 for discussion.

Some of the highest priority items in draft list below would be considered for further development by VLAWMO staff.

Title: VLAWMO's 40th anniversary

Key phrase: "Celebrating 40 years of collaborative watershed management and partnerships"

### E-Newsletter:

- Special edition newsletter: April, 2023 focus on major projects
- "VLAWMO's 40 Year Anniversary" Happy Birthday to the Watershed" at the bottom of standard

### Special VLAWMO webpage:

- Post under "about" tab
- Recorded general talk
- Summary of project highlights, linked to other areas of website
- Water samples taken (estimate)
- Projects involved in (estimate)
- Estimate of how many people have been a part of VLAWMO's TEC, BOD, and staff over the years
- 40<sup>th</sup> anniversary edition VLAWMO logo
- Link to blogs:
  - o Recorded general talk
  - Interview with Steph

#### Blogs:

- Recorded general talk
- Interview with Steph (text)

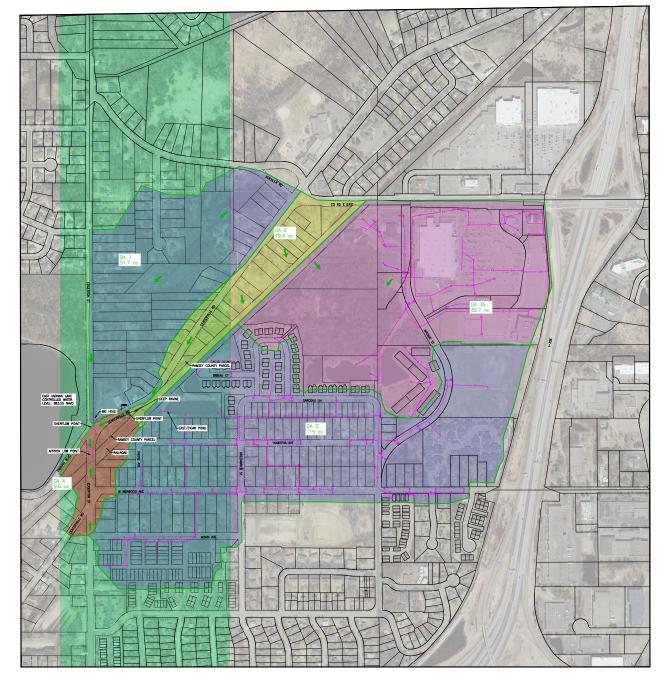

#### Presentations:

- Recorded general talk with YouTube link (5 minutes)
- In-person presentations based on same recorded talk, customized to community

### Annual Report:

- Visual inclusion of 40 year anniversary in routine annual report documents
- Special edition bi-fold brochure
